

# School of Architecture, Urban Planning and Landscape Planning (Germany)

## Institutional Information (Last update at: 24/08/2020)

<b>School/Department name (Native language)</b>	Fachbereich Architektur Stadtplanung Landschaftsplanung
<b>AESOP reg Number</b>	F-049-09
<b>AESOP Member Status</b>	Full Member
<b>University</b>	University of Kassel
<b>Address</b>	University of Kassel School of Architecture, Urban Planning and Landscape Planning Henschelstrasse 2 34109 Kassel Germany
<b>Telephone</b>	unavailable
<b>Fax</b>	
<b>Web site</b>	<a href="http://www.uni-kassel.de/fb06/">www.uni-kassel.de/fb06/</a>

## Contact persons

<b>AESOP Contact person</b>	
<b>Name</b>	Dr. Grischa Bertram
<b>Email</b>	<a href="mailto:grischa.bertram@uni-kassel.de">grischa.bertram@uni-kassel.de</a>
<b>Telephone / Fax</b>	00495618042783 /

## School Information

<b>Full time academic staff members</b>
<b>Part time staff members</b>
<b>Staff members engaged in research</b>
<b>Staff members engaged in professional activities</b>

## Degree Programmes and Educational Provision

### Undergraduate/first cycle degree(s) offered at School/Department

B.Sc. Stadt- und Regionaplanung

<b>Number of years normally used to complete this degree (FT)</b>	3
<b>Part time option</b>	Yes
<b>Number years usually required for completing the degree part-time (PT)</b>	
<b>Delivery mode</b>	On campus
<b>Number of ECTS</b>	180
<b>Teaching languages</b>	German
<b>Specialisation within in this Degree/the curriculum</b>	
<b>The degree requires an assessed period of work in practice</b>	No
<b>Programme accreditation by a professional body/other institution</b>	yes

#### Curriculum/approach description

The School of Architecture, Urban Planning and Landscape Planning offers highly interdisciplinary programmes across three fields of study.

During the 6-semester Bachelor Programmes, students acquire basic competences that are required for the practice of planning and design professions. These include spatial thinking and an understanding for causal relations, the design of spaces and processes, the use of technical and communicative instruments, be they manual, computer-aided or scale models, and the presentation of results.

A practice semester complements and deepens the academic education. Its goal is to acquire multi-faceted design competence in order to master the diverse and changing demands facing the professions of architects, urban and landscape planners.

The Bachelor of Science degree enables the students to work in planning professions or continue their studies in a Master course.

The main language of instruction at the School is German, with a limited number of courses offered in English. International students are expected to have a good command of the German language and to improve existing proficiency in complementary language courses.

#### B.Sc. Landschaftsarchitektur und Landschaftsplanung

<b>Number of years normally used to complete this degree (FT)</b>	3

**Curriculum/approach description**

The School of Architecture, Urban Planning and Landscape Planning offers highly interdisciplinary programmes across the three fields of study. The 4-semester Master Programme 'Stadt- und Regionalplanung' offers the opportunity to choose from two specialized degrees within the discipline of Urban Planning: 'Stadt- und Regionalentwicklung' (Urban and Regional Development) and 'Städtebau' (Urban Design). Teaching and research follow the principles of sustainability – i.e. preservation of resources and the environment, economic efficiency and social responsibility. Throughout the entire course of studies, the development of well-founded design and planning competencies forms the core of the curriculum. The key qualifications are conceptual, artistic and scientific competencies, the ability to reflect one's own decisions, their conditions and perspectives, the thorough scrutiny of projects and their technical feasibility, individual time-management and presentation skills. During studio work teaching staff provides intensive tutoring for small groups of learners. The School has a variety of well-equipped facilities at its disposal, including a scale model workshop, computer pool, CNC moulding machine and 3D-Plotter. All students are provided

## M.Sc. Stadt- und Regionalplanung

with individual work space in studio rooms and have access to all workshop facilities.

Field trips provide opportunities for critical perspectives on architecture and planning. Exchange programmes with international partner universities throughout the world offer a chance to expand studies abroad and facilitate contacts with students from other countries.

The main language of instruction at the School is German, with a limited number of courses offered in English. International students are expected to have a good command of the German language and to improve existing proficiency in complementary language courses.
